📍 Swat, Pakistan

EDUCATION

University of Swat
Bachelor of Computer Science

RELEVANT SKILLS

- Web Development
- HTML & CSS
- JavaScript (ES6)
- Typescript
- React.js
- Next.js
- Material-UI
- Ant Design
- Chakra-UI

CAREER SUMMARY

With over 2 years of experience as a web Development, specializing in React.js and Next.js, I bring expertise in building and delivering high-quality web solutions. During 6-month internship in Indeed, I contributed significantly to frontend development and various other tasks, gaining valuable insights and hands-on experience in the industry.

Proficient in advanced front-end technologies including React Routing, Redux Toolkit, Material-UI, React Hook Form, React Bootstrap, React Query, and Chakra-UI, I excel in coding, debugging, and problem-solving. Committed to creating innovative and efficient software products, I am dedicated to delivering excellence in every project I undertake.

PROFESSIONAL EXPERIENCE

WEB DEVELOPER 01/2022 – in progress
XIVIA SOFT

- Developed dynamic web applications using React.js, Next.js, and Typescript.
- Implemented server-side rendering and real-time functionality with Firebase and REST APIs.
- Designed intuitive user interfaces with Material-UI and Chakra-UI.
- Collaborated with frontend and backend developers to create seamless user experiences.

Projects

Accessory Corner (Internship)
Product web-app

- Developed comprehensive product catalog allowing users to browse, view, and access product details and images.
- Implemented user registration and authentication using Firebase for secure login and account management.
- Enabled shopping cart management for adding, removing, and updating item quantities.
- Facilitated seamless order processing including total cost calculation, customer information collection, and order confirmation emails.
- Created an admin module to manage product categories, individual products, and customer orders.
- Utilized modern web technologies like React with Typescript, Yup, React Hook Form, React Query, Firebase, and Material-UI for a robust and scalable e-commerce platform.

LANGUAGE

- Pashto: Native
- Urdu: Fluent
- English: Intermediate

Gym Workout

Fitness web-app

- Developed a responsive gym workout website optimized for various devices, ensuring accessibility and a seamless user experience across desktops, tablets, and smartphones.
- Implemented a modern and intuitive user interface with clear navigation and visually appealing graphics, enhancing user engagement and interaction.
- Created comprehensive pages including Home, Exercise, Players, Market, and 2nd Branch, each tailored to provide specific information and functionality relevant to gym-goers and fitness enthusiasts.
- Integrated dynamic content elements such as real-time exercise data, player statistics, and market updates to keep users informed and motivated.
- Implemented secure user authentication and profile management features, allowing users to log in, track their progress, and customize their workout plans.
- Ensured fast loading times and optimal performance by employing best practices in web development, including efficient coding, image optimization, and effective caching strategies.

Online Course Academy

Course web-app

- Led as the Lead Front End Developer at Adatos, overseeing the creation of an online academy dedicated to imparting sales and customer relations skills.
- Directed meticulous design and development efforts to ensure a visually engaging interface and effortless user navigation.
- Integrated comprehensive courses covering customer approach, communication strategies, psychology insights, and product knowledge.
- Engineered specialized functionalities to cater to diverse demographics, including couples/groups. Developed robust analytics tools for performance optimization and tracking.
- Expanded role to leverage Adatos as a dynamic advertising platform, strategically implementing technology for impactful marketing initiatives.

Rishta-E-Pakistan

SoulMate web-app

- Package Options Provides premium packages offering detailed information about related individuals, while luxury packages offer additional perks with slightly less information and free option with limited features.
- Quick and Advanced Search options allow users to find matches based on their preferences.
- Highlights featured members prominently for increased visibility. Facilitates the search for soulmates through intuitive search and match algorithms.
- Includes a dedicated section showcasing success stories of users who found meaningful connections through the platform. Offers login, registration, and profile update functionalities for users. Utilizes server-side rendering for all components except client-specific ones, ensuring optimized performance.

Designer Portfolio

(Portfolio)

- Provide specific details about web Developer and responsibilities in each position, including the projects, the technologies Developer, and any achievements or milestones reached.
- JavaScript to build the structure, style, and interactivity of web pages. Front-end frameworks/libraries like React, Angular, and Vue.js are often used to streamline development and enhance functionality.

Byfaith Consult

(Academy)

- Explore a wide array of services tailored for individuals and businesses engaged in trading activities.
- Empowering traders with the knowledge, tools, and support needed to succeed in their financial endeavors.
- Rest assured in a secure and trustworthy environment, where your transactions are safeguarded and your interests are prioritized.
- Join a vibrant community of like-minded individuals and businesses, collaborating and learning from each other's experiences.
- Embrace the future of trading and commerce with Byfaith, where faith intersects with financial growth for a prosperous tomorrow.
